Education

-Civil Engineer/EAFIT University, Medellin-Colombia

Career Objectives

Seeking an Engineering position that is challenging, rewarding and will provide me the opportunity for both personal and professional growth. The ideal position will fully utilize the education and experience that I have gained over the years.

Overview

Skilled in civil engineering and engineering during construction as part of the management team for residential building construction and transportation-related facilities; with a field construction phase services background. I have experience in the use of AutoCAD, Microsoft Word, Microsoft Project, Sage, Procore, PlanGrid and Excel to develop construction plans and technical specifications for projects; including buildings, service roads, runways, aircraft aprons, taxiways, airfield light systems, pavement marking, and underground utilities.

Project Specific Experience

Inspected

-Remote Virtual Inspection (03-22-2021 to Present). Part of the Business Development Team; focused on completion of a wide variety of company's projects, included mechanical, structural, electrical and solar. We review all pertinent construction documentation per client's request and provide honest, unbiased analysis and consultation on alleged damages and deficiencies, Schedule and coordinate remote inspections with the owner and develop written reports of observation and findings. Also, lead team inspectors and perform quality control.

Coastal Construction

-The Plaza Coral Gables (07/2020-11/2020). Part of the Construction Superintendent team; leading and managing the on-site construction, attending production meetings, reviewing the schedule and ensuring quality

standards are met. Collaborate with engineers and subcontractors, set performance goals and deadlines for the construction of a High-End hotel, office space, retail and luxury rentals at Coral Gables.

-The Estates at Aqualina (06/2019-07/2020). Part of the Construction Superintendent team; leading and managing the on-site construction, attending production meetings, reviewing the schedule and ensuring quality standards are met. Collaborate with engineers and subcontractors, set performance goals and deadlines for the construction of two 50-story luxury condo towers located at Sunny Isles Beach.

Magna CM, Inc

-Oak Park Project (2018-2019). Project Manager for the construction of the 22 Luxury Homes with contemporary design; embracing elegance in a natural style of 22 acres, located at Davie Florida. Major responsibility is the planning to ensure the project is completed within set timeframe, following each of the phases using the staff management, resources and budget.

Prodesa International

-Ocean Eighteen Project (2015-2018). Project Management for the construction of three residential buildings at Palm Beach Shores, managing the construction workflow process starting in the project planning stages, implementing the appropriated level of budget, schedule, and quality control. Negotiate contractors, subcontractors and providers to assure the project goals. Identify problems, evaluate options for resolution, and implement appropriate solutions

Jones Benitez Corporation

-Involved as Project Manager for the Property Condition Assessment and Construction Inspection of industrial, retail, and hotel building portfolios (2014). Review facility construction issues, mechanical plant conditions, site and code issue, and provide an in-depth report with term cost analysis. Representative sampling of the major independent building components was evaluated.

URS Corporation

Florida Department of Transportation District Six:

-Design-Build Palmetto/Dolphin Interchange (2013). Processing shop drawings and submittals via Excel for the Design-Build contract.

-Miami-Dade Park & Ride Facilities (2012 Inspection). Involved in the inspection and evaluation of the existing Metrorail, Metrobus, and Tri-rail facilities condition. Inspections focused on evaluating asphalt pavement, pavement marking, lighting, signage, and drainage systems in accordance with FDOT and County standards. It also included the evaluation of their capacities and percentage of occupancy.

Marco Island Executive Airport, Marco Island, Florida:

-Parallel Taxiway "A" and Apron Expansion (2010-2011). Design and construction services of a new taxiway parallel to the existing runway, and apron expansion. This work included FAA standards to develop design documents for soil mix treatment, excavation material, borrow material installation, drainage structures, utilities relocation, pavement marking, and new taxiway edge lighting system, among other activities. Total cost of the project exceeded \$5 Million. I was involved in this project from the preliminary design phase thru the construction phase services, including preparation of construction plans and technical specifications, RFI, RFP, payment applications, reviewing DBE requirements, testing reviewing, site visit, and close out of the project.

-Terminal Apron Expansion & Auto Parking Lot (2009). Coordinating with the project manager the design of a new aircraft parking position area and a new auto parking lot. Specification and design development followed FAA standards and specific Airport-issued requirements. This work included underground utility relocation, material

excavation; borrow material installation, drainage structures, asphalt pavement installation, pavement marking, and new apron lighting, among other activities.

Key West International Airport – Key West, Florida:

-Runway Safety Area (2008-2011). Designing of a non-standard Runway Safety Area and installation of the Engineered Materials Arresting System (EMAS) at one end of the airport runway. This work included excavation material, borrow material installation, and pavement marking. Additional responsibility included preparation of the contract documents; implementing FAA standards, advertisement, bid process, construction management, and coordination with agencies to obtain the necessary permits.

-New Terminal Parking Lot (2005-2010). Involved in the design of the new parking lot for the terminal. The work consisted of a new roadway access, elevated access road, a bridge, and a double-parking deck. Total cost of the New Terminal and Parking Lot exceeded \$25 Million.

-Resurfacing Runway 9-27 and Drainage (2003-2004). Designing and preparing complete set of construction plans including specifications for the entire Runway 9-27 resurfacing project (milling and overlay). Development of specification and drawings notes required understanding of the FAA standards for implementation into project. The project also included the demolition of existing concrete shoulder, installation of new sod and drainage system along south side of runway 9-27, pavement grooving, and runway pavement marking.

-Seal Coat Ramps, Marking, T/W A-9 Rehabilitation and Environmental Mitigation (2004).

-Terminal Rehabilitation (Customs Building – Replace A/C and Handrails) (2004).

-Resurfacing Taxiways and Aprons (2002-2004).

-Hangar Development, Taxilanes and Apron (2003).

-Airfield Guidance Signs and West

-Apron Lighting Plan (2002).

Conducted design and preparation of the complete set of contract documents, technical specifications, and providing construction management services.

Florida Keys Marathon Airport – Marathon, Florida:

-Public Parking Aprons (2006). Involved in the preparation of a complete set of contract documents (plans and FAA technical specifications) and served as a resident project representative for the construction of a new general aviation concrete and asphalt pavement aprons. The work also included drainage, grading, and paving marking activities.

-Resurfacing Taxiways and Hangar Access at Marathon Airport – Marathon, Florida (2004). Involved in the design for the resurfacing of Taxiway “A” project along with connectors “B”, “C”, “D” and “E”. The project also included the construction of Taxiway “A” extension; terminating at the hangar access.

-Sheriff Hangar and Related Work (2002), Service Road (2002), Taxilanes/Connectors, FBO, Sheriff Aprons and T-Hangar Development (2001). Conducted design and preparation of a complete set of contract documents, technical specifications, and providing construction management services.

-New Runway 8/26 (2000). Involved in the construction plans quality control process.

-Concourse “A” Apron and Utility Corridor, Phase III (1999). Design of the main underground utilities. The airside along with the landside utility corridors work consisted of installation of the sanitary force mains, communication ducts, dual jet fuel lines, water mains, and electrical power ducts.

Luis Sanchez, PE, CGC (cont'd.)
Telephone 954-547-6694

La Gabi Construction

-Various Urbanization Projects, Medellin, Colombia (1986-1999). Civil Engineer in charge in the construction of the residential building projects up to five stories. Most of the responsibilities included surveying, design plans, pricing, budget control, and sales. These projects included installation of water, electrical, sewer, drainage, and elevator systems, among others.

Through careful listening and subsequent actions, any client's needs, no matter how unique can almost always be met. If they can be met, they can be exceeded.

EXPERIENCE

2020-PRESENT

BUILDING INSPECTOR, CITY OF KEY WEST

Residential 1 & 2 FL license, including mechanical, electrical, plumbing and plans examiner. Completing on-site inspections, dispositioning completed inspections, keeping constant communication with contractors, utility departments, planning departments and city officials in an efficient and meticulous manner.

2003-2020

GENERAL BUSINESS MANAGER, JOHN VALDES & ASSOCIATES

To oversee entire employment hierarchy including but not limited to: subcontractor, vendor, and client negotiations on the business and construction side of the management equation. Adept at the intricacies of disaster relief and the resultant special needs of the clients and customers through multiple hurricane remediation projects. I am also familiar with the nuances of the various financing required to get hurricane victims happily and healthily back into their pre-hurricane condition homes. Sales, consulting and "critical path engineering" to turn client ideas and dreams into reality. Making sure all financial obligations are met quarterly and that there are no hiccups in day to day operations and accounting.

2000-2003

OWNER/PARTNER, WORLD GYM INC.

Responsible for entire management system from hiring and firing of employees, day to day dealings with vendors, marketing, sales and client relations. Interfacing operational accounting data, projected earnings and quarterly forecasts as they related to shareholders.

2002

BACHELOR OF SCIENCE NUTRITION/EXERCISE SCIENCE
