re: ELEVATION LETTER – 151 SW SILVER PALM DRIVE, LAKE CITY, FL

As requested, I inspected the building site for the proposed construction at the above referenced site. Per the flood report by SRWMD, there are no wetlands or floodplains on the site.

Per the plat for the Preserve at Laurel Lake, Unit 1, plat book 9, pages 19 through 25, the minimum finished floor elevation is 118.3'. The approximate road centerline elevation is 115.7'. The finished floor elevation of the home shall be 116.9'.

I certify that the minimum finished floor elevation listed above will protect the structure against water damage from a base flood event, as defined in Article 8 of the Land Development Regulations.

Should you have any questions, please don't hesitate to contact me.

Respectfully,

Carol Chadwick, P.E.
